

60 Second Scientist

Climate & Weather Science Spinner

1. Print the spinner onto card and cut it out. Use a pencil or wooden doweling to create the centre spinner, using blu-tack/tape to secure if necessary.
.....
2. Children take turns to spin the card.
.....
3. Whichever edge it lands on the next child shares as many facts as they can about the subject for up to 60 seconds.

Are you a 60 second scientist?

Making it easier: Children can ask for help from grown-ups or play in pairs.

Making it harder: Increase the time.
